Chapter 1 by ✨Sofia✨

I walked into the classroom with my head low.

I was the new transfer student. "Hello... My name is Skylar but you can call me sky.. I'm new here.." I say. "Why don't you choose who to sit next to, there is a few open seats." The teacher says. Everyone suddenly burst out yelling, "Sit next to me! Sit next to me!" I look around the room and see one person who wasn't yelling, a boy in the back. "I'll sit back there." I say as I point to the boy in the back. "aww man!" Everyone seems to say. One boy actually said, "Man, Alex you keep taking all the girls!"

I walked back to my seat and set my stuff down. I said hello to Alex and all he did was nod.

Class was dismissed. I walked to lunch, and met up with Alex at the table. "Hey, we didn't introduce ourselves properly, I'm Sky." I reached out my hand for him to shake. He said, "Hello..... I'm Alexander... bu-t you can cal-l my Ale-x.." He shook my hand. I opened my lunch box and realized he didn't have a lunch. "Are you going to eat?" I asked. Alex said, "I'm not hungr-" His stomach rumbled. "You sound hungry." I said while offering half of my sandwich and my bag of chips. "Here." I said. Alex lifted his head up off his hoodie and took the food. "Thanks..." He said nervously.

I knew it, Alex grabbed my hand and we ran into the woods.

Chapter 2 by Fox

I continued to ask him where we were going, but it seems he couldn't hear me. After a while of running, we stopped to catch our breaths. "We're almost there." Alex said reassuringly. "Where exactly are we going? Are we going to get in trouble? Does this count as skipping class?" I ask frantically while still trying to catch my breath. My mind is exploding with questions that I feel like I HAVE to ask. "Don't worry, you'll have time to ask questions when we get there." Alex said. It seems to me that Alex's personality completely changed!

We walk for what seems like ages, until we get to a path surrounded by trees, with the sunlight peeking through the leaves of the trees. "This is beautiful!" I say with excitement. We continue to walk along the path until we stop at something I can't seem to see. "Watch out," Alex says. He stops abruptly and presses buttons that I still can't see. What ever it was starts to move and creates a passage way, identical to the path we were on before. The only difference was that there was large numbered doors on the right and left sides of the path, I suppose they lead to more paths.

"Here, I have something to show you," Alex said as he opened the first door with the number one on it...
